

A photograph of a long, multi-arched stone bridge spanning a wide river. The bridge is constructed from large, light-colored stone blocks. The water is a muddy brown color and appears to be flowing rapidly, creating white foam and turbulence as it passes through the arches. In the background, a sandy riverbank is visible with some sparse, dry vegetation and a few small trees. The sky is overcast and grey. The overall scene suggests a historical or natural setting.

Bridging Paul to Moses

Fear of Missing Out

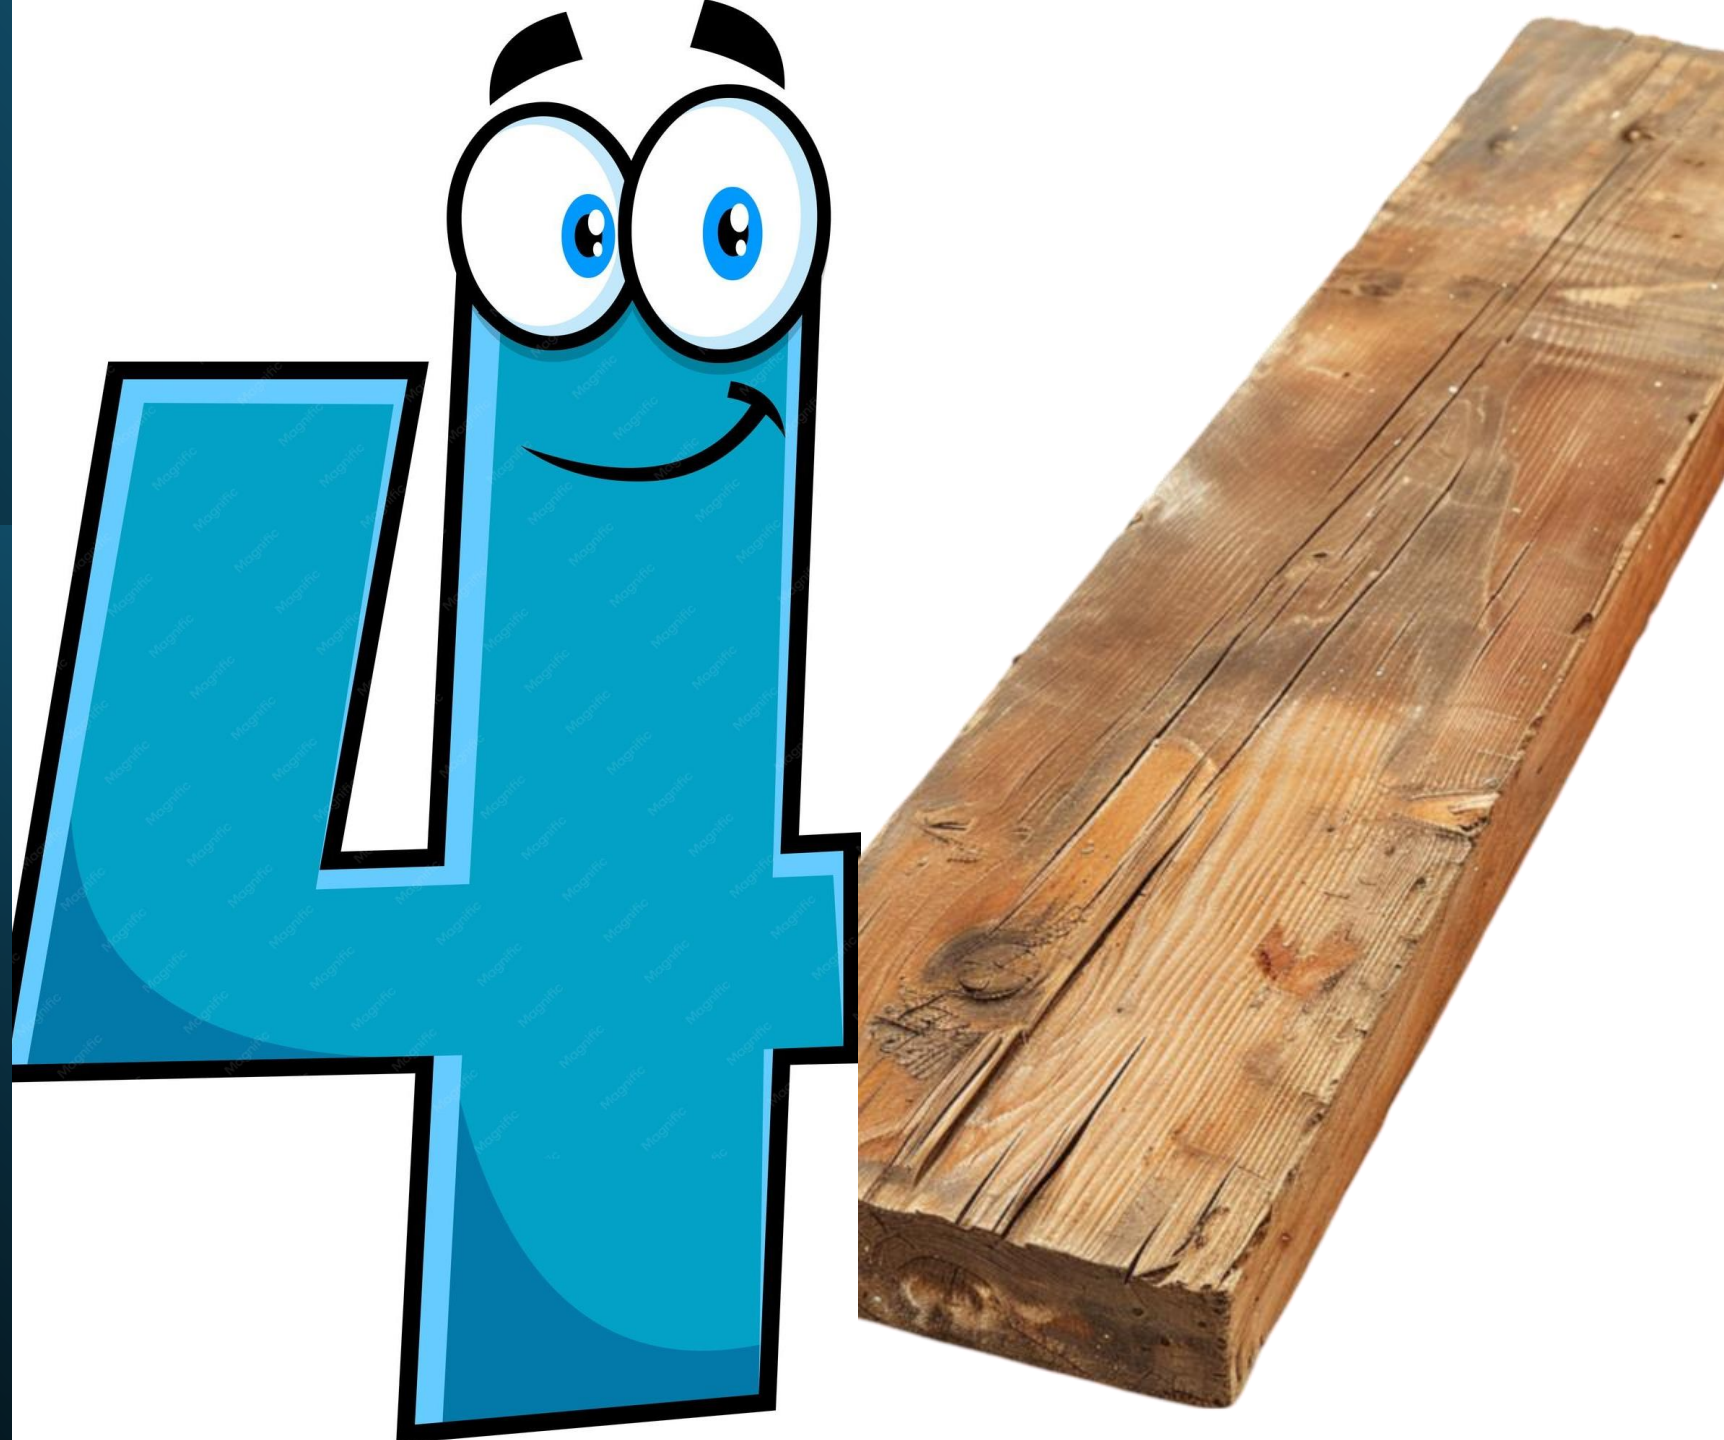

Instructions on faithfulness

out
(FoMO is not just a
fear)
